

Target language:

Numbers 1-3

Go! Stop!

Sounds: s ,g ,z ,d, f, k, p, r

Put the chairs or stools in a circle. The teacher shouts one, two, and three, go! The students pass the hammer while either listening to music or singing a song. The teacher shouts stop and says a word. The student has to hit the letter that word begins with. Repeat a couple of times then let a capable student be the teacher. This can be used to revise other vocab already practiced by asking the students to give you the letters and getting them to place the new cards in the middle of the circle. One hammer per ten students should be enough.
